THE NATIONAL CURRICULAR FRAMEWORK

FOR SCHOOL EDUCATION

The National Curriculum Framework (NCF) for School Education is a key document that guides the development of school curricula. It is based on the National Education Policy (NEP) 2020 and aims to ensure that all students receive a high-quality education that is relevant to their lives and the needs of the country. The NCF provides a framework for the design of school curricula, including the selection of content, the organization of the curriculum, and the assessment of learning. It also provides guidance on the role of the teacher and the school in implementing the curriculum.
